

Discovering Your Dream Job

"Find a job you love and you'll never work a day in your life." (A quote by Confucius)

1. Write down as many things that come to mind under each category as you can in five minutes!

Hobbies	Interest	Talent

2. Now, as quickly as you can without really thinking about it long, circle two to four things in each category that interest you the most.
3. Write down jobs that you could do using your favorite circled hobbies, your talents and your interests (at least 3 dream jobs).
You can use these sentence patterns as examples. Try to come up with different sentence patterns.

- I could be _____ because I like _____, am very interested in _____, and I am very good at _____.
- I could be _____. This job is a combination of my _____, _____, _____, and _____.
